The great thing is to get the end of the railway wedge firmly inserted. It was fondly hoped, when the pioneer line between Woosung and Shanghai had been successfully opened, that the wedge had found its way in showed their determination once and for all

to allow nu foreigner to acquire property on Chinese soil outside the limits of the settlements. The spirit that prevails among the mandarins at the present moment varies nowise from that which induced between Spain and Annan signed in 1880 &c., them in former times to so heartily oppose The ALPHARETICAL LIST of FORETON the introduction of any project having RESIDENTS has been increased by apwards of even only a foreign origin. The same preof the Chinese mandarine, but they have these feelings to so completely blind them to the promotion of their own interests. Thus it happens that in these later years we see the two greatest Viceroys in the Empire reporting in favour of the introduction of railways, and last of all we find a Censo -one of an anti-foreign and highly concommence work on the same. It is of

servative class-urging the Government to less importance who makes the railway so long as it is made. An inexhaustible supply of good and cheap labour is at band, coal can be obtained at small cost and in great quantity from the Kaiping and other mines, iron will not long be wanting, and there should be no obstacle to the rapid spread of the railway in those portions of the Celestial Empire where facilities for water carriage are scant economic value of railway as a means of communication to open up markets and connect the interior with the ports would be especially felt. Fewer famines, greater prosperity, less brigandage, and better government would prove a few among the blessings which might be expected to attend the in troduction of the railway.

THE CHARGE OF ASSAULTING A PRIMET. The case of the cross-animuouses, between the Rev Dr. E. Giebler and Mr. A. P. Pereira. olerk to Mesers, Butterfield and Swire, was inrestigated yesterday morning, each charge being of assault on the 2nd inst. Mr. J. J. Francis appeared for Dr. Giebler

and Mr. Holmes for Mr. Pereirs. Both cases were taken togrether. Mr. Francis, in opening the case for the pro secution, said the facts were simple. The comlainantween Roman Catholic priest temporarily residing here, and on Sunday morning, about ! clock, he was going to the Cathedral whom h saw the defendant and another man in the private passage leading into the Cathedral. They had their hats on, and he told them they ought to take them off in a private house, but was only reslied to by a coutemptuous shrug of the shoulder He said the young man were ill-bred, and went into the Cathedral. About half an hour afterwards Dr. Giebler was coming down the stairs to breakfast, when the defendant met him and said he had been insulted and would have satisfaction. Dr. Giebler bade him take his bat off if he must have seen it if he had. The defendant did wished to address him, and as he did not do so: he took it off for him and handed it to him, when

the defendant struck him on the head with a cane and then struck him with his hand. The defendant was then seized, the caue taken from him, and the police called. Dr. Giebler had used no violence to the defendant, and though he would have been quite justified under the sircumstances, in knooking him down, he only removed his bat. The assault was most unprovoked, cowardly and cold-blooded, and he asked that his Worship should severely punish the defendant, as there were several other Portuguese like him in the Colony-who acted in a way that was not calculated to conduce to the penci and go d order of the colony, and he should call His Worship's attention afterwards to other

things which had occurred before. Mr. Holmos said an important witness wished to call had been soised with a fit that morning, and could not attend, and he feared he might have to ask for a remand. After some discussion, it was decided to go

The following evidence was then taken :-Dr. Giebler said he was a doctor of medicine and a clerk in hely orders. He was a Brazilian and living here for a time with the Italian mis sionaries in Wellington-street. On Sunday last he was resident in the house, and at 9 30 a.m. he was in his private room when he was sent for to go to the church and hear confessions. When he came down to the foot of the stairs he saw two young men, of whom the defendant was one they had their hats on and were walking up and down the passage, which was a private one Complainant told them that if they had any communication to make they ought at least to have education enough to take off their hats

THE PROSPECTS OF NORTH BORNEO.

An announcement appeared the other day amongst the shipping arrivals which claims a little more than the mere passing interest usually given to that portion of a newspaper. It recorded the entry into this harbour of the British ship Arches from Kudat, and consequently the first opening of a trade which, it can scarcely be too much to predict, will before longeoastitute an important feature in the commerce of the East. tish enterprise needs but a reasonable opening to effect startling results; and, in this count says that he notually was the man who case, with a country comprising an aren equal to that of Ceylon, and only waiting cultivation and development of its many latent resources to render it a mine of marketable produce of all kinds, it cannot be said but that the opening afforded is one from which most promising results scenes which took place at the American Conmay be looked for, and that at no distant salate, Ningpo, on the 17th instant, where Capdate. LETTER FROM THE KING OF COREA TO THE PRESIDENT OF THE UNITED STATES.

The King of Corea addresses the President the United States .- Knowing that the government and policy of Your honourable country are just and equitable, we have long desired to onter into friendly relations with You; hitherto, however, fate has been against us, and we have not succeeded impending storm. About 11 p.m., however, some in our object. We now acknowledge with pleasure having received a visit from a high officer sent by You with a view to establishing Treaty relations between our respective countries; and 8 a.m., since which we have had light variable in order to effect this object, we have appointed | we ther. His Excellency Shen, of the Bureau of Administration, as our Minister Planipotentiary, assisted by Chin, also employed in the same department. The Treaty may thus be signed within a few days, and Commodore Shufeldt will then be able to present it to You for ratification, after the exchange of which we shall enter into friendly relations for ever .- A reply to the above will be received with thankfulness and respect.

ENCLOSURE. The King of Corea acknowledges that Corea is a tributary to China; but in regard to both foreign policy and domestic legislation it enjoys full independence. Now as we wish to establish treaty relations between Cores and the United States, we hereby appoint His Excellency Shou and the Assistant Chin as above described to repair to Jen shan to confer upon the matter with due caption; and the King of Gorea distinctly undertakes on his own responsibility to carry out the articles contained in the treaty that shall be made, to which both parties must conform. As regards the tributary relations anbaisting. botween Cores and China, these have nothing to do with the United States. The present document is specially addressed to the President, Ko-fei-erb. The Mainichi Shimbun is kept so well posted on Corean affairs generally, that we are inclined to think there may be a shade of truth in the following story of a plot having been discovered for the assassination of the king of Corea. It is well-known that the nati-foreign element in Corea is very strong, which is not a matter for much surprise; and doubtless there will be, from time to time, fanatical attempts made on the lives of those whe are known to be in favour of opening the country. The Mainichi say that the present king of Corea is a very intelligent person, who has made himself as well ac quainted with the progress of the world as cir cumstances premitted; and, notwithstanding an obstinate opposition, has resolved to throw his country open to foreign nations. This has given great offence to a large section of the people, who hate him intensely. So great is their hatred to the king that, towards the end of May, some forty or lifty persons, headed by one Cheitten, banded themselves together for the purpose of taking the king's life. Their plan was to surprise the guard of the palace, overcome it, enter and slay the object of their hatred ... Preparations for the execution of this daring plot were commenced, but one of their number releating informed the authorities of the scheme in progress, which resulted in the ring-leaders being arrested and the frustration of the foul deed .- Japan

SIBERIA.

VLADIVOSTOCK I have a shocking story to tell you to-day, After a winter's absence in Japan, Mr. Cooper arrived here in the small schooner Olya, a purcluse he had made in Kobe for the purpose of trading on the coast. He stopped here a few days and then started for Olga and further, where he had left his two sons to look after his CHU YU CHEE, Esq. | CHANG BU Ho, Esq. stores during the winter, and barter for sables CHING TO CHAI, Esq. YEP YU TIN, Esq. and decriorus. At a place some distance from Olga he went on shore, expecting there to find his some; but the house which he had left in the previous autumn had been burnt down, and he saw no signs of living beings near. He went parts of the World. up in the woods to a neighbouring Tazar village, Usual returns of Premia are made to all to the burnt house his people dug amongst or not. the rains, where he, to his horror and dismay, found some human remains, which proved to be those of his eldest son, 21 years old, and of at least one Chiniman besides! On looking into a small joss-house near by, he found his youngest son, a boy of 14 years, killed, with e bullet-wounds in him, besides numerous hacks

made by knives or the like. In mockery these human fleuds had decked out the poor boy's CAPITAL TABLE 600,000; EQUAL TO \$833,338.33 brought to Olga, where an examination showed the outrage to have been committed about five days before the finding. That the guilt rests | LEE SING, of the Lai Hing Firm. with those disgraces to greation, those beasts of Wong Yik Pun, of the Chun Cheong Wing prey, the Mansas, there can be no doubt. To find the actual murderers will of course never Loo YEE, of the Yes On Firm. happen, but as they all are perfectly slike, and Wong PAR CHEONG, of the San Tye Lee Hong. everyone will do the same act over again if the Tez Kar Tune, of the Yea Cheong Hong. chance falls in their way, it is to be hoped that Lo YEOR MOON, of the Kwong Man Cheeng [(CERCLE TRANSPORTS REUNIES) some of these brutes may be made to feel an avenging band.

Two escaped convicts from West Siberia have been arrested. They made their escape good for a couple of thousand versts, only to be stopped here. It was first remoured that they were political offenders; but later town talk has made them out to be two celebrated " million-thieves " from Moscow. They were sent back some days ago, heavily chained. Our direct communication with Odessa seems

to have some drawbacks, at least for our merchants. It has been brought to our notice from several sides, that the officers on board the volunteer vessels derive a brisk trade from the ship, every officer boing allowed to THE Undersigned having been appointed bring from thirty to fifty tons of cargo for himself; and advantage of this is taken in the pared to issue Policies of Insurance against Fire manner above stated. It is even stated that on the usual terms. goods like brandy, etc., on which there is a large duty, is sold of course very much cheaper than any merchant is able to sell it. If this is the case, something should certainly be done to shock ANGTSZEINSURANCE this illegal trading, by which no small wrong is done to our merchants, who have to pay their duties and taxes. That such statements are abroad of officers in a Company like the volunteer fleet, is certainly enough to warrant a strick enquiry into the truth of the accusation.

. A company of Japanese acrobats do not seem

to take the public fanoy. They are mostly patronized by Chinese and Maness. There is a general activity in our port at present; new buildings, new roads, brick-works, etc .- in short everything is stirring. Of Government buildings, two new large brick barracks, and some structures where the new port is going to be; amongst the latter A. I. M. INVERARITY, a handsomely finished brick house, intended for mining stores and work-shop, is nearly ready? Of private houses, Messrs, Kunst & Albers are building a new store, in a style hitherto not attempted in this settlement. The roads are under repairs in quite a promising way; as they have been a standing complaint as long as Vladivo. stock has existed, it will constitute a desp-felt want by our growlers if they really should turn

out any way decent now. The Governor of this eastern part of Siberia, General Barau ff. arrived here on the ninth just. on a tour of inspection; he is only paying us a non-official visit, us Vladivostock itself does not stand under his gubernatorial sway. The weather is improving, although rather misty as yet Everything in full bloom, thermometer at 65 9 Music in the gardens commenced first of May, old style, 'The Nishni Navgorod with convicts went direct from Hongkong to Saghalien, where she discharged ber interesting cargo, arriving here on the 29th of May; she left 6th instant.
